

## **ROLE: Professional Services Internship**

### **ORGANISATION: BDO**

We're BDO. An accountancy and business advisory firm, providing the advice and solutions businesses need to navigate today's changing world.

The entrepreneurial businesses we work with are Britain's economic engine – ambitious and high-growth businesses that fuel the economy – and the owners and management teams that lead them.

#### **This Is Where It All Begins**

Our 11-month internship will see you gain invaluable knowledge and skills as well as exposure to BDO and our people, which could lead to an offer of a graduate role.

You'll explore different specialisms within your stream and get stuck into a range of exciting projects. We'll support you all the way, with extensive training as part of your induction week including specific stream training, information on professional qualifications and workshops specially designed to introduce you to our values and the importance of wellbeing. You'll also work on group projects with other interns from other areas of the firm.

You'll expand your portfolio of skills and experience a breadth of opportunities across one of three business streams:

#### **1. Audit**

Audit is about exploring whether an organisation's financial position is true, fair and accurate. That means you'll spend every day working as part of a close-knit team, working with individuals at all levels to understand their financial performance, business systems, culture and risks.

#### **2. Tax**

Tax is a rewarding area for diverse personalities, whether you enjoy untangling complex technical details, working with technology, relish connecting with and helping brilliant people, or love solving problems in new and unique ways.

#### **3. Shared Service Centre (SSC)**

Joining BDO's Shared Service Centre (SSC) means being part of an exciting period of growth and change in one of our key business areas. You could work across every part of BDO, specialising in services that impact every client and help create real value by doing them efficiently and effectively. As well as assisting on

large-scale operations, beyond the capacity of a core specialist team, you'll provide the unparalleled expertise to keep the firm moving forward.

### **What we're looking for**

We want you to thrive in a warm and welcoming culture where you can be yourself. We're looking for:

- A predicted 2:2 degree in any discipline
- Three A-levels or equivalent at A\* to C excluding General Studies and Extended Projects (obtained or predicted)
- A 9 – 4 in Maths and English at GCSE or equivalent (we will also consider qualifications from outside the UK)

When you join us, we'll make your learning our priority. That means providing you with an environment where you can grow, learn, and feel respected, at all times.

### **Why BDO?**

Ask anyone what they love about working at BDO and they'll tell you it's the people. We're a friendly and diverse bunch who work hard to achieve the best outcomes and know how to have fun too.

This is where it all begins. Start your career journey with BDO.
