

ROLE: Finance Analyst Internship

ORGANISATION: LEGO®

We're looking for Interns to join our LEGO® Retail Finance team! This is a chance to make a direct impact on a global company through data, while honing your business knowledge and play a vital part in helping one of the world's best-selling and most reputable toy brands reach more children.

Core responsibilities

The role will be varied and exciting. You will have the opportunity to work across the LEGO® Retail Finance team and business partners, including but not limited to the following topics:

- Help drive the digitalization of Finance and build financial reports in an efficient and business-focused way, leveraging data analytics.
- Supporting on digitization of stores or ecommerce reporting.
- Analysing key drivers to understand business performance.
- Supporting defining the commercial plan to improve revenue performance.
- Supporting improving forecasting accuracy of both revenue and costs.
- Supporting in preparing materials for senior executive teams.
- Providing analysis and insights for ad hoc projects as needed.

Do you have what it takes?

- Proficient in both written and verbal English.
- Strong numerical A levels (or equivalent). Accounting/Economics/Finance/Data Science are preferable.
- Possess a quantitative approach and analytical capabilities and be passionate about unlocking insights through data.
- Good communication ability and confident with presentations.
- Strong organizational skills, with the ability to meet deadlines and perform multiple tasks optimally.
- Familiarity with MS Excel (e.g., pivot tables, look-ups, macros, etc.) and visualization tools (Power BI, Tableau, etc.).
- Ability to process large volumes of unstructured data and organize information – experience with SQL or other languages preferred.

What you can learn as an intern

- Exposure to a high performing global finance team that has embraced hybrid work arrangements.
- Understanding of P&L and underlying drivers of performance.
- Utilising data to support faster and better business decision making process.
- Getting the mentorship and development opportunities to discover your potential.

Interested?

If you are interested in applying for this role, you will need to be able to articulate the following:

- Why would you like an internship at the LEGO Group?
- Why does Finance interest you?
- Why should the LEGO Group consider you for this internship?
